I seek challenging opportunities where I can fully use my skills for the success of the organization.

Experience

- Diversified network infra solution pvt Ltd** October 2024 - July 2025

Network operation center engineer L1

Work As a network engineer L1 at Airtel (Tech Mahindra project)

Project short description :- In this, project using dynamic routing (BGP) between CPE and PE as per customer's requirement on link.

All customers are looking to connect their branches or site with the primary links that is RF, FIBER, FTTH, 4G etc.

- Monitor and test network performance using variety of monitoring tools like Siebel, CFM 2.0, DT, CHITRAGUPT, M6, PUTTY, BMC.
- Checking the Link down issue, Packet drop (Link Flapping) issues.
- Monitor Large computer networks problems from a central location and to analyze problem, perform troubleshooting.
- Before perform the activity on customer's router we check primary and secondary path to the customer's link by putty.
- Providing support & resolution to customers within the defined SLA.
- Available on outlook to coordinate with customer on mail regarding their link issue.
- Minimized service disruptions by performing scheduled maintenance during off-peak hours.
- Reduce downtime with proactive notification of potential issues through regular network service

Education

- Gita Ghat swami shivanand H/S(BSEB)** 2017
High school
68%
- Kishan inter college (BSEB)** 2020
Intermediate
65%
- RR Institute of modern technology Lko (AKTU)** 2024
B.tech (Computer science and engineering)
70%

Technical Skills

- CCNA
- OSI model
- TCP IP model
- IP Addressing
- TCP/UDP
- DHCP

- DNS
- AZ 900 Azure Fundamentals
- Subnetting
- Routing
- OSPF
- Understanding of SDWAN
- Understanding of STP
- VLAN
- Window server

Technical Course

- Web developement from Sky labs engineers Lucknow
- CCNA training from Network bulls

Training

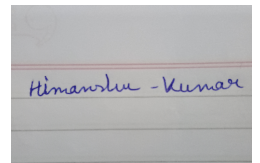

- Web developement training
- Network Fundamentals
- Azure Fundamentals
- CCNA

Interests

- Listening to music
- Playing E games

Languages

- Hindi
- English
