

AKASH SRIVASTAVA

Network Engineer

Indreshsrivastava3009@gmail.com | 8738811469 | [linkedin.com/in/akash-srivastava](https://www.linkedin.com/in/akash-srivastava) | Greater Noida

Network Engineer with hands-on experience in **designing, implementing, and maintaining robust network infrastructures**. Proficient in managing **computer networks**, including **mainframes, VPNs, routers**, and other physical hardware. Skilled in **configuring network equipment, creating firewalls**, and implementing **data security systems** to safeguard communications and data. Eager to leverage technical skills and contribute effectively to a forward-thinking organization.

KEY SKILLS

- **Networking:** CCNA (Routing and Switching), Routing Protocols, Switching, Computer Troubleshooting
- **Cyber Security:** Risk Assessment & Management, Network Security & Monitoring, Penetration Testing, Vulnerability Assessment
- **Tools & Technologies:** Wireshark, Metasploit, Nmap, Burp Suite, Firewalls, IDS, Honeypot
- **Soft Skills:** Problem Solving, Analytical Thinking, Team Collaboration, Reliability

PROFESSIONAL EXPERIENCE

L1 Engineer | IAS Infra Security Solution Pvt Ltd, Greater Noida

Oct'2024- Present

- Deliver hands-on support at **Yotta Data Centre**, managing and maintaining **networking devices** such as routers, switches, servers, and firewalls to ensure seamless infrastructure performance.
- Execute **physical installation, configuration, and troubleshooting** of critical hardware, directly contributing to the operational efficiency of the client's data centre.
- Use **ticketing tools like Tussum** to document and resolve issues promptly, maintaining high standards of service quality and client satisfaction.

PROJECTS

RIP Routing Protocol

- Developed and Configured RIP on routers, using distance-vector algorithms to optimize LAN traffic management.
- Regularly updated routing tables, broadcasting every 30 seconds, reducing congestion, enhancing network efficiency and data reliability.
- **Tools & Skills used:** Networking, RIP Protocol, Routing Algorithms, Router Configuration.

Keylogger Implementation

- Developed and deployed a keylogger to capture and record keystrokes on a target system, simulating potential cybersecurity threats.
- Utilized C&C server communication to transmit captured data, demonstrating security vulnerabilities and the risks of unauthorized access, including identity theft and financial loss.
- **Tools & Skills used:** Python, Malware Analysis, Network Security, C&C Server Configuration.

EDUCATION

Masters in Computer Application

2022-2024

APJ Abdul Kalam Technical University, Lucknow

Bachelors in Computer Application

2016-2019

United Institute of Management, Prayagraj

Intermediate

2014-2016

Bal Bharti School, Prayagraj

CERTIFICATIONS

Certification in Python | Cetpa Infotech Pvt Ltd, Noida

2025

Certification in Ethical Hacking and Cyber Security | Cetpa Infotech Pvt Ltd, Noida

2024

Certification in CCNA | Cetpa Infotech Pvt Ltd, Noida

2024
